

Log the Link to Your Git Hub Account

- Due Feb 1 by 11:59pm
- Points 10
- Submitting a website url

Your Git Hub account should be live and already have a few files in it.

For this assignment, I want the link to view these files.

- Make sure the link works without a user name or password.
- There is this option of no password with a proper address.

Make sure no to post this link except when asked for so we don't make it public.

The next time you see this type of Git Hub assignment, I will ask to grade the file content not that the link works.

**note: Please make sure the link works as public! Just because you have the link doesn't mean I can see it :)

Example of what the link should look like when I click on it:
